### Facade, Curtain wall - Facade aluminium | Technal UK

A curtain wall system is an outer covering of a building in which the outer walls are non-structural, utilized only to keep the weather out and the occupants in. Since the curtain wall is non-structural, it can be made of lightweight materials, thereby reducing construction costs. When glass is used as the curtain wall, an advantage is that natural light can penetrate deeper within the building.

### Curtain wall (architecture) - Wikipedia

The recognised industry standard for curtain walling in the UK is the Standard for systemised building envelopes (SSBE) from the Centre for Window and Cladding Technology (CWCT). CWCT is an industry-funded information provider and trainer in the field of building envelopes and glazing. It publishes both standards and guidance.
