Best book from Morris Mano and want to recommend this book for every one who want to make a good overview and good knowledge on Digital Electronics and Circuit Designing. Just some of the concepts are not that briefed like the meely and moore's circuit Designs.. But Overall a very good book to have with a ELECTRONICS student.

Digital Design by Mano is not a reference book. This book is only good if you have a good professor. If you miss a class and try to read the book, it is impossible to understand. I did very bad on my first exam so i decided to buy another book to go along with this one.
