The pump itself can vary timing within a window, meaning advance some or retard some. Some tunes ask for 20+ degrees btdc after 4500 or so, in that case having the number at 80 is a good idea, even though it is off the scale it does not affect actual timing, as the ecu may ask for lets say 12, and will get 12.

When Should You Replace the Timing Chain in Your Volkswagen by aandmautowpuser December 12, 2018 . It is not unusual to hear about replacing timing belts in car engines, and there are specific service periods in which replacements are recommended so that you don't suffer engine damage from a broken timing belt. Some cars do not have a timing belt, though.
