Possible Solutions Acid Rain

Possible Solutions.

There are many possible solutions to the acid rain problem. One solution is to use fuels that burn more cleanly. Another solution is to burn coal more efficiently. Power plant and factory chimneys can be fitted with scrubbers that release 90-95% sulfur free smoke and also produces sludge from which gypsum, a building material, can

Elmhurst University

What Can You Do To Prevent Acid Rain? Acid rain may feel like a huge problem, but there are actually many things that you can do as an individual to help prevent it. Any step you can take to conserve energy will reduce the amounts of fossil fuels that are burned to produce that energy, thereby reducing the formation of acid rain.
