High Wire Distilling: The Art Of Making Whiskey From Heritage Grains. High Wire Distilling, based in historic Charleston, South Carolina, is not your typical craft whiskey distillery. Founded by husband and wife team, Scott Blackwell and Ann Marshall, High Wire is known for making your typical bourbon and rye style expressions, but for a good number of whiskey related bottlings it is making use of rarer heritage types that falls to Blackwell's specialized background as a former artisanal ...

Distilling 101: How Whiskey Is Actually Made - Eater

The following chart shows the principal setup of a Scottish malt whisky distillery with two pot stills. Distilleries with three pot stills and triple distillation are extended by one step correspondingly. Many large distilleries have four, six or more pot stills, which aren't operated in series but in parallel. The connection of the pot stills can be even more complex, if for example the ...

The Art of Distilling Whiskey and Other Spirits: An ...

Brewing and distilling go hand in hand because the mash-tun can produce wort for brewing or wash for distilling. To distill whiskey you first have to make beer. Beer is a technical term for whiskey wash, regardless of the type of raw ingredients used. The microbrewer uses a mash-tun to produce a sweet barley water called wort.

Craft of Whiskey Distilling - Aussiedistiller

The three main authors of The Art of Distilling are: Bill Owens, who is a distiller, a brewer, a publisher, a writer, and a photographer. He founded the American Distilling Institute, and is the author of How to Build a Small Brewery.

The Art of Irish Whiskey Distilling STEP 1 - MALTING Malted barley is a key component of whiskey production. Malted barley is produced by steeping raw barley in warm water for 40-60 hours at a temperature of 12-15 degrees in order to make the barley think it is spring time in its natural life cycle and the barley begins to germinate.

The Art of Irish Whiskey Distilling | Pearse Lyons Distillery

Now it's time to distill and separate all of that alcohol content into a purified form. Like making mash, distilling is as much an art as it is a science. The best way to become a good distiller is to practice. We recommend taking notes throughout the process so you can become better with each run.

How to Make Moonshine: A Distillers Guide - Mile Hi Distilling

"Creating flavors and harmony for a product can be called art," they say, "however, creating the characteristic of each component whisky is science." The philosophy and general approach to blending is unsurprisingly about the same at archrival Suntory, where combinations of grains, stills and barrel types allow the distillery to produce over 150 different styles of spirit from which to blend.
