Mexican currency crisis in the mid-1990s. Thus, the Asian crisis became a major policy concern at the International Monetary Fund as well as among developed countries whose cooperation in dealing with such financial crises is necessary to maintain the stability and efficiency of global financial markets.

## **The Asian Financial Crisis: Origins, Implications, and ...**

The Asian financial crisis, like many other financial crises before and after it, began with a series of asset bubbles. Growth in the region's export economies led to high levels of foreign direct investment, which in turn led to soaring real estate values, bolder corporate spending, and even large public infrastructure projects. Heavy borrowing from banks provided most of the funding.
